MOTION ON EAST TIMOR

TL484

1. Considering that the violation of human rights is the genocide of the people of East Timor carried out by the Indonesian government, is a crime against humanity.

2. Considering that the ongoing transmigration policies forced upon the poor population of Java (up to 100,000), putting in risk the local environment with projects of re-colonization.

3. Considering that the destruction of Tropical Rainforests in East Timor (namely napalm in the late 70s) as a form of controlling the population, removing them to strategic villages, as a way of finishing with its natural patrimony.

Considering that these interventions are continously denounced by international organisations, such as Amnesty International and the Red Cross. The assembly manifests its profound worries about this situation in East Timor, condemning all the actions of the Indonesian Government and manifests its solidarity with the people of East Timor.

We therefore propose that the AGM gives the mandate to the next Ex. Comm. to send a delegation to East Timor before the next AGM, preferably consisting of 4 people: a Portuguese, a Dutch, an Austrailian and an Indonesian, inorder to analyze the situation mentioned above and produce a report to be presented to the next AGM and be made public.
